r. M. Milton Takin Taking Blood Pressure Test With the Sphygmomanometer, an Instrument of Wonderful Precision in Making Physical Diagnosis.

The numerous articles and statements by prominent people that have appeared in the press during the past few months in- about a month ago-that I read in dorsing the work of Dr. M. Milton Talkin in such glowing terms, dorsing the work of Dr. M. Milton Talkin in such glowing terms, have been the subject of wide comment. The apparently miraculous cures performed by this specialist have been known to arouse no little wonder, in the minds of a good many newspaper arouse no little wonder, in the minds of a good many newspaper readers, and caused many to speculate as to how this man is able to accomplish so much, particularly in such difficult cases. The reasons underlying Dr. Talkin's success as explained by the specialist, are, first, his extreme care and the employment of common sense methods, together with modern scientific facilities, in diagnosis and treatment. Dr. Talkin lays particular emphasis upon the importance of correct diagnosis, because, as he points out, the ailment must be accurately known before proper treatment can be given. In this connection, attention is called to the wonderful diagnostic instruments he uses, among them the Sphysmomanometer, the value of which as an aid in determining the patient's condition can hardly be overstimated.

Second, that Dr. Talkin personally sees and treats every potient on each and every visit. He never turns a patient over to assistants, but makes a personal study of each individual case. Dr. Talkin feels that each patient who receive all he is justly entitled to if Those desiring special appointments he were turned over to less experience can arrange for them by 'phoning ed assistants. Dr. Talkin could, of Randelph 5808.

No matter what your trouble may be, no matter of how long standing, no matter how many doctors may have treated you without relief, you owe it to yourself to at least consult with this well-known specialist. No one is two poor to receive his best, most conscientious attention, none so rich that better service could be had Dr. Talkie Dr. Talkin feels that each patient who hetter service could be had. Dr. Talkin entrusts himself to his care is entitled makes no charge for consultation, and to the best service and attention is the best service and attention. undertake your case.

Praises Dr. Talkin's Skillful Service

Richmond, Va., Feb. 15, 1917. Dr. M. Milton Talkin, Virginia Bullding

the splendid reflet from my suffering you have given me. For two years I have been suffering from a complication of diseases of the heart, stomach and kidney trouble; during this time I made every effort to find someone who could relieve me of my suffering without success, although I consulted the best medical skill in Richmond.

What, then, must my feelings be, when after my experience 1 find the relief I sought for two years in thirty days under your very able treatment. You have brought me around from a condition bordering on despair to a state that I experienced before I became broken down in health. came broken down in health.

I can once more work full time and the skepticism in the medical science that I could not help feeling, has dis-appeared and my faith in your ability employ that science successfully

I carnestly hope that you may long continue in your noble profession to render your services as successfully as you have in my case.

Yours very truly. C. H. HART, Ellison, Va.

Dear Sir.—Permit me to give expression to my feelings of gratitude for the splendid relief from my suffering you have given me. The large suffering to the splendid relief from the splendid relief from the splendid relief from the suffering to the splendid relief from the cation of Diseases Tells What Dr. Talkin Did for Him

in to anyone suffering as I did.

For more than 15 months I was taken with violent colicy pains and thumping of the heart. I became dizzy, seized with vertigo and my suffering from this combined trouble was almost unbearable. I have walked the floor at night for hours at a time trying to get relieved. I stopped coffee, I cut tea out and most of my food.

The former doctor did me very little good. Then I got another doctor, but he neither gave me any relief. I fell off 20 pounds or more, but since I have been under Dr. Talkin's treatment I have regained several pounds. To-day I have no sick spells and no colic, and from a condition of almost insensibility, Dr. M. Milton Talkin has brought me to a condition where I For more than 15 months I was taken

brought me to a condition where can feel like living once more. I ca well, sleep well and no longer suffer My wife and my friends can see the change in me, and tell me so. I am glad to recommend any sufferer with trouble like mine to this specialist.

SPECIALISTS SAID HE HAD CANCER

Had Stomach Trouble

Vields to Dr. Talkin's Treatment.

To have endured for four years the mental agony of belleving his life was being slowly caten away by a cancer, not to mention the physical pain and disfigurement caused by an ugly, running sore on his upper lip, was the harrowing experience of Mr. M. E. Bishop, a well-known citizen of Richmond, residing at 300 Fifth Avenue, Highland Park. Mr. Bishop, before his retirement sometime since, was prominent in the city's business circles for more than 50 years.

About four years ago Mr. Bishop was first troubled with a small ulcer on the upper lip, which gradually spread and became an ugly, spreading sore. Blood and puss would form, causing Mr. Bishop considerable pain and embarassment. He treated the ulcer himself with salves, and other so-called remedies and consulted a number of doctors and specialists, without in the least relieving the trouble, however. Almost without exception these specialists pronounced the sore a cancer. When at last the trouble seemed to be growing serious, Mr. Bishop visited a well-known hospital, but hesitated about placing himself under treatment on account of the very large fee which was mentioned. It was then that he placed himself under the care of Dr. M. Milton Talkin, and after one month his condition had so greatly improved that he was able to discontinue Dr. Talkin's treatment. To-day there is hardly a mark visible where there was once an ugly, discharging sore. Incidentally, this was accomplished at a fractional part of the fee Mr. Bishop was asked for the hospital treatment. Mr. Bishop says: "Dr. Talkin cured me of an ulcer on my upper lip, regarded by the best doctors as a cancer, and I am as well as I ever was."

(Signed) M. E. BISHOP, I have been under Dr. M. Milton Talkin's treatment for two months for stomach and head trouble. I used to suffer with pain in my back and under the shoulders. I have had stomach trouble for years, and suffered a great deal with headache. I had tried other doctors and various nedicines, but in spite of that my condition obliged me to seek the aid of Dr. M. Milton Talkin, and I must ay that he has done me more good han anyone else.

My condition has so satisfactorily managed that it me so is satisfactorily managed that it me satisfactorily. improved that I am now discontinuing further treatment, and am glad to be able to recommend Dr. M. Milton Talk-
